Dilation Preference

Dilating the pupils is the medical standard of care. It allows the doctor to fully examine the retina for signs of disease (bleeding, tumors, or damage to blood vessels), which can occur without symptoms and lead to permanent vision loss if untreated.

Please select your preference for today's visit:

I AGREE to be Dilated (Recommended)

I understand I may be light-sensitive and have blurry near vision for 2-4 hours.

I PREFER NOT to be Dilated

I understand the risks of undiagnosed retinal conditions and assume responsibility for opting out today.
